## Multiplizieren von zweistelligen Zahlen - 2

1)  $6 \times 93 = \underline{\hspace{2cm}}$        $7 \times 54 = \underline{\hspace{2cm}}$        $5 \times 85 = \underline{\hspace{2cm}}$   
 $64 \times 4 = \underline{\hspace{2cm}}$        $75 \times 6 = \underline{\hspace{2cm}}$        $52 \times 8 = \underline{\hspace{2cm}}$   
 $6 \times 38 = \underline{\hspace{2cm}}$        $8 \times 62 = \underline{\hspace{2cm}}$        $4 \times 73 = \underline{\hspace{2cm}}$   
 $55 \times 9 = \underline{\hspace{2cm}}$        $83 \times 3 = \underline{\hspace{2cm}}$        $71 \times 6 = \underline{\hspace{2cm}}$   
 $9 \times 27 = \underline{\hspace{2cm}}$        $6 \times 47 = \underline{\hspace{2cm}}$        $8 \times 38 = \underline{\hspace{2cm}}$

2)  $29 \times 6 = \underline{\hspace{2cm}}$        $41 \times 8 = \underline{\hspace{2cm}}$        $73 \times 9 = \underline{\hspace{2cm}}$   
 $7 \times 45 = \underline{\hspace{2cm}}$        $4 \times 88 = \underline{\hspace{2cm}}$        $69 \times 7 = \underline{\hspace{2cm}}$   
 $68 \times 3 = \underline{\hspace{2cm}}$        $65 \times 7 = \underline{\hspace{2cm}}$        $8 \times 45 = \underline{\hspace{2cm}}$   
 $9 \times 39 = \underline{\hspace{2cm}}$        $9 \times 54 = \underline{\hspace{2cm}}$        $28 \times 8 = \underline{\hspace{2cm}}$   
 $56 \times 8 = \underline{\hspace{2cm}}$        $54 \times 5 = \underline{\hspace{2cm}}$        $35 \times 5 = \underline{\hspace{2cm}}$

3)  $6 \times 63 = \underline{\hspace{2cm}}$        $4 \times 77 = \underline{\hspace{2cm}}$        $6 \times 89 = \underline{\hspace{2cm}}$   
 $75 \times 8 = \underline{\hspace{2cm}}$        $68 \times 5 = \underline{\hspace{2cm}}$        $84 \times 3 = \underline{\hspace{2cm}}$   
 $9 \times 32 = \underline{\hspace{2cm}}$        $6 \times 66 = \underline{\hspace{2cm}}$        $9 \times 12 = \underline{\hspace{2cm}}$   
 $72 \times 4 = \underline{\hspace{2cm}}$        $72 \times 8 = \underline{\hspace{2cm}}$        $63 \times 6 = \underline{\hspace{2cm}}$   
 $99 \times 9 = \underline{\hspace{2cm}}$        $8 \times 42 = \underline{\hspace{2cm}}$        $2 \times 22 = \underline{\hspace{2cm}}$

4)  $7 \times 93 = \underline{\hspace{2cm}}$        $9 \times 37 = \underline{\hspace{2cm}}$        $77 \times 7 = \underline{\hspace{2cm}}$   
 $58 \times 4 = \underline{\hspace{2cm}}$        $87 \times 7 = \underline{\hspace{2cm}}$        $88 \times 8 = \underline{\hspace{2cm}}$   
 $77 \times 3 = \underline{\hspace{2cm}}$        $4 \times 44 = \underline{\hspace{2cm}}$        $22 \times 2 = \underline{\hspace{2cm}}$   
 $2 \times 87 = \underline{\hspace{2cm}}$        $66 \times 2 = \underline{\hspace{2cm}}$        $99 \times 4 = \underline{\hspace{2cm}}$   
 $10 \times 100 = \underline{\hspace{2cm}}$        $55 \times 5 = \underline{\hspace{2cm}}$        $99 \times 7 = \underline{\hspace{2cm}}$
